

Infoblox Professional Services: Advisory Services

MAXIMIZE THE VALUE OF INFOBLOX

Infoblox Advisory Services offers expert guidance and strategic consulting for customers who wish to optimize their Infoblox implementations. With a focus on DNS security and DDI (DNS, DHCP, and IP address management) offerings, our seasoned Professional Services consultants provide deep insights and recommendations specifically tailored to your needs.

KEY FEATURES

Strategic Consulting:

- **Guidance Sessions:** Engage in focused guidance sessions with our experts to address key challenges and explore opportunities for enhancing your value from Infoblox solutions.
- **Knowledge Transfer:** Benefit from comprehensive knowledge transfer sessions on DDI and DNS security. Our Professional Services consultants will equip your team with the essential skills and insights needed to effectively manage and optimize your network infrastructure.

BloxOne® Threat Defense:

- **Implementation Guidance:** Receive expert guidance on the implementation and configuration of BloxOne Threat Defense to safeguard your network against a diverse range of cyber threats.
- **Threat Intelligence Configuration Guidance:** Harness our expertise to seamlessly configure threat intelligence feeds to bolster BloxOne Threat Defense's capabilities in identifying and mitigating emerging threats.

NIOS and BloxOne® DDI:

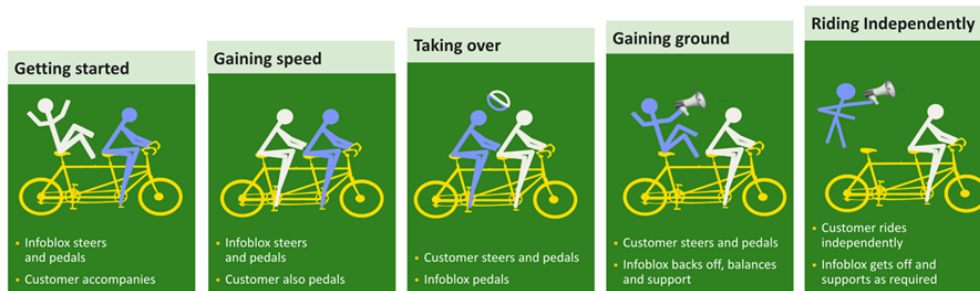

- **Configuration Guidance:** Get expert guidance for configuring and optimizing your NIOS and BloxOne DDI solutions, based on your specific objectives.
- **Best Practices:** Use proven best practices to optimize your Infoblox configurations to meet your business and technical requirements.

BENEFITS

- **Informed Decision-Making:** Make informed decisions about your network infrastructure and security investments with valuable insights and recommendations from Infoblox Advisory Services.
- **Expert Guidance:** Augment your internal expertise with access to seasoned professionals who possess deep knowledge and experience in DDI configurations and DNS security solutions, including NIOS, BloxOne DDI and BloxOne Threat Defense.
- **Proactive Risk Mitigation:** Identify and mitigate security risks proactively with strategic guidance and recommendations tailored to your organization's unique threat landscape.
- **Cost Efficiency:** Maximize the return on your investments by leveraging strategic consulting services to optimize the performance and effectiveness of your DDI configurations and DNS security solutions.
- **Troubleshooting:** Rely on our experts for your DNS/DHCP/IPAM issues associated with the functioning and performance of your Infoblox products to ensure you gain optimal results.

HOW DO INFOBLOX ADVISORY SERVICES WORK?

Customer Working with Infoblox Professional Services

Infoblox Advisory Services offerings:

Offering	Term	# of hours/week	Total number of hours
Advise	6 months	2	40
Advise Plus	6 months	4	96
Advise Ultimate	12 months	4	200

In each Advisory Services offering, a designated Infoblox Professional Services consultant will be working with the customer team for a pre-defined number of hours per week during scheduled days and times for either 6 or 12 months, covering the activities outlined in the “Key Features” section above.

Get Started Today

Unlock the full potential of your Infoblox devices, network infrastructure and security defenses with Infoblox Advisory Services.
